Projects

Wanderlust – Full-Stack Accommodation Booking Platform (MERN Stack)

- Built a full-stack accommodation booking platform using the MERN stack, featuring user authentication, property listings, booking flow, and search with filters.
- Developed responsive and intuitive frontend pages for home, listing details, host dashboards, and booking management, ensuring smooth navigation across devices.
- Implemented backend APIs for CRUD operations, secure bookings, user roles (guest/host), and integrated MongoDB for scalable data storage and retrieval.

FOREVER - E-commerce Platform (Frontend)

- **Tech Stack:** React.js, Tailwind CSS, Context API, React Router
- Built a fully responsive e-commerce frontend with a modern, user-friendly interface using React.js and Tailwind CSS.
- Implemented complex state management using Context API to handle cart functionality, product filtering, and sorting efficiently.
- Designed a seamless navigation experience with React Router, ensuring smooth transitions between product listings, details, and checkout pages.

Netflix Clone (React App)

- **Tech Stack:** React.js , TMDB API Search, Library, and Playlist screens.
- Developed a high-fidelity frontend replica of the Netflix UI, integrating the TMDB API to fetch and display dynamic movie categories, trending shows, and details.
- Implemented dynamic banner generation and row-wise scrolling for different genres, seamless and visually recreating the authentic streaming platform experience.
